SCCs:
Working Together

Welcome

Welcome!!

- ✓ Purpose and Intent
- ✓ Presentation Overview
 - ✓ Beliefs
 - ✓ Information
 - ✓ Involvement
 - ✓ Engagement
 - ✓ Leadership
- ✓ SCCs Action Plans

Beliefs

What might be the beliefs and assumptions of parents being involved in schools in relation to the community?

Belief

Parents want to be a part of their child's education

Parents can work with the school on learning goals and wellness goals

Beliefs

"You may be disappointed if you fail, but you are doomed if you don't try."

- Beverly Sills, American opera singer

We Believe ...

- ✓ All parents care about their children.
- ✓ All parents hold knowledge of children, teaching and learning.
- ✓ Parent engagement happens in multiple ways and in multiple places.
- ✓ Children, parents, families, schools and communities should all be strengthened through parent and community engagement. (Pushor, 2001/2006)

We Believe ...

- ✓ Communities are capable of positive change.
- ✓ There are solutions to all challenges facing our children's ability to learn.
- ✓ One of the strongest forces for making change is community empowerment.
- ✓ Community members are desirous of improving their communities and are willing to contribute their energies toward such ends.

Information

What it looks like ...

Students, parents, and community members are informed of decisions made by school staff.

Examples of Information:

This information may be shared in forms such as a newsletter, letter, handbook, a meeting, through personal contact, or social media.

Involvement

Defining “involvement” ...

The word involvement comes from the Latin word “involvere” which means “to roll into.” Students, parents, and community members are “co-opted”; “brought into the act by another party.”

Involvement may include activities such as having parents work at and support school sponsored events, arrange fundraising activities, be audience members or support classroom activities.

Engagement

Defining “engagement” ...

The word ‘engagement’ comes from ‘en’ meaning *make* and ‘gage’ meaning *pledge*:

- ✓ to make a pledge to; to make a moral commitment. Students, parents, and community members who are engaged are “brought into the act” because of care and commitment.

(Pushor, 2005)

Engagement

Together, staff, students, parents, and community members work collaboratively to create a SCC action plan to support student learning.

Children, families, the school and the community **all** benefit from this engagement.

(Amendt, 2004; Pushor, 2005)

Engagement

Examples of “engagement” ...

- ✓ A preschool teacher is interested in developing a transition strategy from preschool to Kindergarten.
- ✓ The teacher begins seeking information from former and current preschool parents as to what worked best for their child(ren) and what they believe would help with the transition.
- ✓ The teacher invites parents and school staff to a meeting to dialogue about this issue and to work together to develop a transition strategy.

(Amendt, 2004)

Engagement

Examples of “engagement” ...

- ✓ A school wants to work toward improving student academic performance.
- ✓ Through personal contact, all staff invite students, parents and community members to a forum to discuss what they could do together to positively impact achievement.
- ✓ Together, they actualize the plan and integrate the learning community’s suggestions into the school. They review their progress by measuring and sharing outcomes with all involved. (Amendt, 2004)

Leadership

"Example is not the main thing in influencing others. It is the only thing."

- *Albert Schweitzer, German medical missionary*

Leadership

Defining “leadership” ...

“Leadership” falls to the person best able to take the lead at a particular point in time. In this conceptualization, leadership is an act, not a position.

Every student, parent or community member has the potential to be a *leader*.

Leadership

Examples of “leadership” ...

This act of leadership may include such things as:

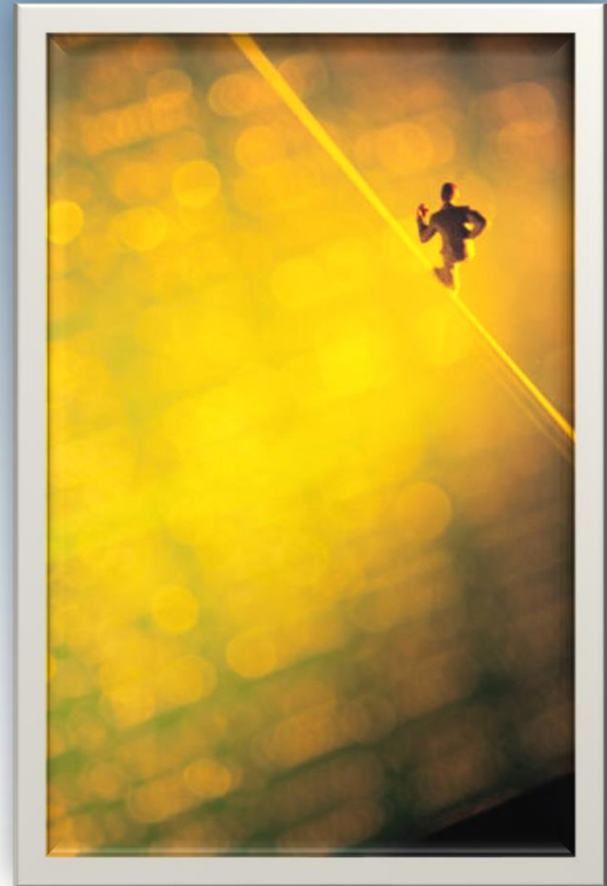

- ✓ parents collaborate with teachers to organize family literacy events to support children and their families based upon a defined need;
- ✓ Parents, staff concerned with rise in bullying organize a guest speaker for parents to come in and talk about bullying in our community; along with a professional presentation for teachers.

Leadership

To get what
we've never had,
we must do what
we've never
done.

- Anonymous

Practices

For Quiet Reflection ...

Question:

As a School Community Council ...

How do we do our work in a way that engages children, youth, families, and community?

Practices

Below are four examples that schools may be **involved** in as part of their regular practices.

Pick one and discuss how you would approach that activity in a way that **engages** children, youth, families, and community.

1. Increasing physical activities
2. Promoting early literacy
3. Bridging Faith formation between students, families and our church
4. Supporting the enhancement of second language programming
5. Promoting healthy food and nutrition.

The Saskatchewan's plan for Education advances both provincial and local Priorities:

- **Provincial priorities**
- **Division priorities**
- **School and Community priorities**

School Community Councils

Principles and Vision:

School Community Council responsibilities address key matters that make a difference in student learning and well-being.

- focus attention on the areas of the school's Learning Improvement Plan where the parent/community perspective and efforts are most appropriate and needed; and,
- monitors its activities to support continuous improvement in the areas of student learning and well-being.

Leadership

Having a simple,
clearly defined
goal can capture
the imagination and
inspire passion.

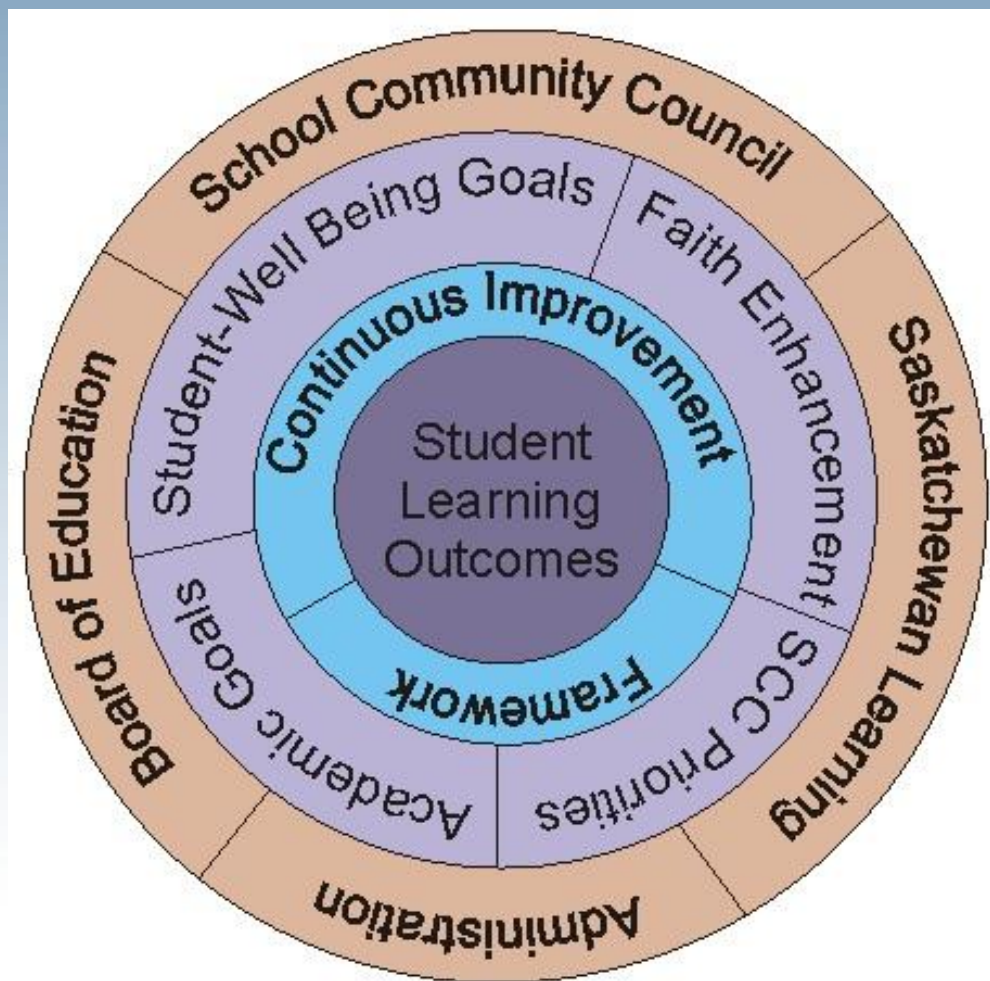

It can cut through the fog like a beacon in the night.

Alignment

Alignment / Coherency of School Goals

Pattern of parent, educational, school division input into “student learning outcomes”

School Community Councils

- Council initiatives must support the school's Learning Plan and must focus on improving student learning and wellness
- Council must plan, organize and carry out initiatives with parents and the community
- Schools will inevitably take a lead role in academic goals that will need to be supported by the council
- Councils could take a lead role in student well being with the school playing a more supportive role
- Student well being goals must be supported by the community and should be based upon research and deliberation

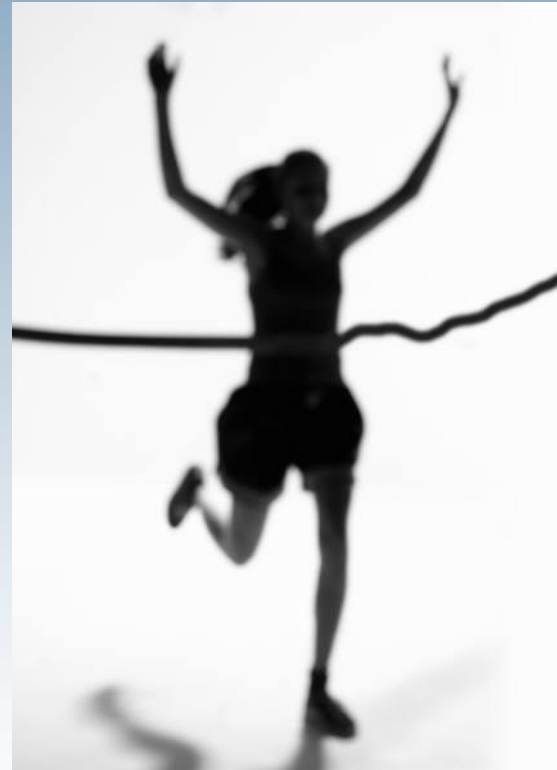

Parent and Community

- ✓ Engage in projects to support identified goals from the Learning Plan.
- ✓ Plan educational events to inform the parents and community about learning.
- ✓ Spread the word in the community about the work and efforts of the council.
- ✓ Identify resources already available in the community that could support the school plan.
- ✓ Raising or accessing funds to purchase supports needed for projects undertaken.

Actions

With
Awareness
comes
responsibility
... responsibility
to **ACT**.

Examples ... SCC Actions and Supports for Student Learning Goal

Early Literacy

- ✓ Educational presentations for parents about programs like guided reading, family literacy, speech and language concerns, etc.
- ✓ Initiate a reading incentive reward program
- ✓ Literacy backpack lending program
- ✓ Compiling schedule of seniors to read or be read to by students
- ✓ Creating literacy packages including books for new families
- ✓ Family events like books and bagels, Robert Munsch Night, literacy bingo, Story Night, etc.
- ✓ Working with regional or community libraries

Examples ... SCC Actions / Supports for Student Well Being Goal

Physical Activity & Nutrition:

- ✓ Provide facts and information to parents and community
- ✓ Develop ways for families to be more active outside school
- ✓ Participate in “In Motion” programs
- ✓ Serve mainly nutritious food from school concessions

SCC Action Plan

✓ Use Forms on Website
Form 15.1 or 15.2

Summary of Task:

- ✓ Preparation of a SCC Action Plan
- ✓ Preparation of the annual budget to support action plan
- ✓ Determination of a communication plan for parents and community
